

NEWPORT MAN GAVE HIS LIFE

Private George L. Pelkey
Was Killed in Action
in France

FAIR HAVEN SOLDIER DIED OF DISEASE

Sergeant Ebenezer Bull Was
Included in To-day's Casualty List of 80

Washington, D. C., June 27.—The army casualty list to-day contained 80 names, divided as follows:

Killed in action, 29; died of wounds, 6; died of accident and other causes, 4; died of airplane accident, 2; died of disease, 2; wounded severely, 31; wounded, degree undetermined, 4; missing in action, 2.

The list:

Killed in Action.
Lieut. Ernest A. Giroux, Boston.
Sgt. Elwood D. Allen, North Dexter, Me.
Sgt. Harrison Gallimore, Jellico Creek, Ky.
Sgt. Harold McElhiney, Skowhegan, Me.
Sgt. Aloysius J. Poplmann, Covington, Ky.
Corp. George E. Friday, Detroit.

RHEUMATICS WON'T BE FOOLED

They Stick to "Neutrone Prescription 99."

You have tried a lot of things for rheumatism but still have it, it sure is discouraging.

Now try the new, sure, quick, easy, no-trouble way, the new "Prescription 99" way.

Watch it get that uric acid out of your system, get rid of those sore, aching, inflamed joints and muscles, and in a hurry, too. "Neutrone Prescription 99" is as sure as time.

No more fiery salves and liniments that hurt you more than the rheumatism, but a good, clean, internal remedy that eliminates all impurities of the blood, makes you like new, makes you feel like doing things once again. You can distinctly feel your rheumatism leaving you and oh! what a relief, your rheumatic days are over. 50c and \$1.00 the bottle.

E. A. Drown, the druggist, and leading druggists everywhere.—Adv.

Let Cuticura Care for Baby's Skin

It's really wonderful how quickly a hot bath with Cuticura Soap followed by a gentle anointing with Cuticura Ointment relieves skin irritations which keep baby wakeful and restless, permits sleep for infant and rest for mother, and points to health in most cases when it seems nothing would help.

Sample Each Free by Mail. Address postcard, Cuticura, Dept. 7A, Boston. Sold everywhere. Soap 25c. Ointment 25c and 50c.

On the Road

A shipment of Hudson and Saxon Six Touring Cars, also Federal 2-ton worm-drive and Maxwell 1-ton Trucks. A good time to get your order in and get delivery of car. Call or 'phone garage.

TO INCREASE YOUR STRENGTH

power and endurance, you will find this new medicinal combination, Hood's Sarsaparilla before eating and Pepton after eating, to be remarkably, even wonderfully effective. There is nothing better for weakened, run-down conditions.

The economy of taking these two great medicines together is being proved every day by thousands who must be careful of their expenses.

If a laxative is needed, take Hood's Pills. They are purely vegetable.—Adv.

AN INTERNATIONAL RESERVE BOARD

Is Proposed by Rome to Serve as Police-
men to Preserve Financial
Peace.

Rome, Tuesday, June 25.—A proposal for the creation of "an international reserve board" on the lines of the American Federal Reserve board has been sent to President Wilson and the heads of the other allied powers, according to a statement made here yesterday by David Lubin of Sacramento, Cal., American representative in the International Institute of Agriculture at Rome.

"The creation of such a board," said Mr. Lubin, "would mean the setting up of an international policeman to preserve financial peace within the borders of the allied countries. The details of the plan have been sent to President Wilson and the leading statesmen and financiers of the allied nations."

GIRL DROWNED IN MILTON.

Bertha M. Wood, in Camping Party,
Jumped from Canoe.

Milton, June 27.—Bertha May Wood, the 17-year-old daughter of Mr. and Mrs. B. H. Wood, was drowned Tuesday afternoon while bathing in Lake Champlain near Camp Rich. Miss Wood went into camp that morning on the Fay farm with a party of girls chartered by Mrs. C. O. Dunham of Georgia Plains.

In the afternoon they were in bathing, and Miss Wood and another girl were using an old canoe. Apparently they suddenly realized they were getting out too far, and Miss Wood jumped, but was already over her depth and she was drowned. The body was recovered and hastily buried in a shallow grave.

R. H. McCormey of St. Albans was summoned and applied his lung motor, but all efforts failed. The body was taken to her home.

Besides her parents, she is survived by five sisters and two brothers. A sister, Miss Gladys Wood, is a nurse in St. Albans.

RECALLED FROM PEKIN.

American Minister is Coming Back for a
Conference.

Pekin, Monday, June 24.—(By Associated Press.)—Paul S. Reinsch, the American minister, will leave the end of this week for the United States, having been recalled for conferences at Washington.

HAIR ON FACE WHAT CAUSES IT

It has been proven by the world's greatest authorities that it stimulates and increases hair growth to merely remove it from the surface of the skin. The only common-sense way to remove hair is to attack it under the skin. DeMiracle, the original sanitary liquid, does this by absorption. Only genuine DeMiracle has a money-back guarantee in each package. At toilet counters in 60c, \$1 and \$2 sizes, or by mail from us in plain wrapper on receipt of price.

FREE book mailed in plain sealed envelope on request. DeMiracle, 129th St. and Park Ave., New York.

ONLY 17 LEFT IN CLASS ONE

After Present Calls on Ver-
mont Have Been
Filled

NEW REGISTRANTS WILL BE CALLED ON

To Fill Out the Quota to Be
Sent for Mechanical
Training

When the registrants have responded to the two calls in which the state of Vermont has been asked to send into service there will be but 71 men left for general service in class 1 in the state. These are so scattered that they are of little avail in the coming call for mechanical training men, so that some of the young men who have recently become 21 years of age will be given a chance, if they have had a grammar school education, to go to Burlington on July 15 in the call for mechanical training. If they volunteer, which chance has been offered them, they will get state pay. This opportunity was offered the registrants of the old draft, but they fell short 180 of meeting the requirement, so that some men will have to be drafted to fill the quota of 365 from Vermont.

Although 176 persons have volunteered, Gen. H. T. Johnson had to make up a quota for each county, but those counties in which many men have self-inducted will not be hit hard, although it would at first so appear. For instance, Washington county is called upon for 65 men and 50 of these have volunteered. From the county quotas given below take the number of men who have self-inducted and the net number of men that will have to respond to the call is obtained, namely, 15 in Washington county.

The quotas are: Addison 15, Bennington 20, Caledonia 45, Chittenden 45, Essex 45, Franklin 45, Grand Isle 4, Lamoille 10, Orange 10, Orleans 20, Rutland No. 1 35, Rutland No. 2 11, Washington 65, Windham 30, Windsor 25, so that Rutland, where there has been a very small self-induction is hit hardest in the state.

The self-induction that has taken place in some of the counties in the above call has its effect on the coming call for 205 men to go to Camp Devens, which was also mailed to the county boards this morning. In this list Essex county, with the single exception of Rutland county, is hit hardest. Addison, Chittenden, Grand Isle, Lamoille, Washington and Windham furnish no men in this quota. Those furnishing are: Bennington 33, Caledonia 6, Essex 42, Franklin 8, Orange 14, Orleans 16, Rutland No. 1 29, Rutland No. 2 24, Windsor 33.

When these men have gone and if there is no other call in July for men from Vermont, the state will have furnished through the draft alone for the army 4,400 men, probably a better record than any other state in the union, when those who have self-inducted and volunteered are added.

NORWICH DEGREES.

Trustees Voted to Confer Ten at Their
June Meeting.

At the regular June meeting of the board of trustees of Norwich university, held in Dewey hall, Northfield, on June 18, it was voted to confer the following degrees:

Bachelor of science in civil engineering—Gerald A. Bixby of Chelsea, Ray A. Burt of Springfield, Mass., Harold S. Howard of Bradford, Ralph A. Smith of Orleans, Mass., George H. Squires of Brattleboro.

Bachelor of science in chemistry—Walter B. Boewe of Taunton, Mass., Clifton C. Shinguin of Woburn, Mass.

Bachelor of science—Karl A. Davis of Lyndonville, Charles P. Cassidy of Poultney.

Master of arts—Karl F. Baldwin, '08. The small number of graduates this year is explained by the fact that 15 members of this class have entered the service since the beginning of the war. All the men who stayed to graduate are now at the officers' training camps working for their commissions, or have already earned them.

The following members of the board of trustees were re-elected for a term of five years: Dr. W. B. Mayo of Northfield, Col. Fred D. Thomas of the 57th U. S. Pioneer infantry, Hon. Frank Plumley of Northfield, Col. Nelson L. Sheldon of Boston, and Major Lee S. Tillotson of the service of supply department, American expeditionary forces. Dr. Fred E. Steele of Montpelier was elected alumni trustee for four years and Lieutenant Commander DeWitt C. Webb, U. S. N., for five years. Hon. Frank Plumley was re-elected vice-president and Capt. H. W. Orser secretary and treasurer of the corporation.

The resignation of Prof. R. E. Hussey as assistant professor of chemistry was regretfully accepted. Professor Hussey has accepted a responsible position with the DuPont Powder company. Committees on resolutions were appointed to prepare suitable resolutions on the death of William A. Ellis, '97, at one time historian, librarian and curator of the university, and at the time of his death assistant librarian of the New York public library; and on the death of Captain Edward McC. Peters, Jr., U. S. A., son of Capt. Edward McC. Peters, U. S. N., a member of the board of trustees. Captain Peters met his death while leading his men against the enemy in France.

Dean H. R. Roberts reported that there was a better outlook for a good entering class this fall than there was a year ago at this time. Last year's entering class was the next to the largest in the history of the college. The committee on the centennial steps reported very satisfactory progress. More than half of the necessary amount has already been raised, and there is much enthusiasm shown over the project. A committee was appointed to finally locate the position of these steps. The centennial committee entrusted with the duty of finding a suitable way in which to celebrate the centennial of the university next commencement was asked to report at the August meeting.

Premium Cows Brings \$650.

Brattleboro, June 27.—A five-year-old cow, which has taken premiums at the National Dairy show, was sold this week at the first consignment sale of Ayrshires ever held here, and brought \$650. She was bought by C. B. Stevens of St. Johnsbury. Fifty-five animals were disposed of in one day. The heaviest buyer was B. F. Davis of Barre, who paid \$1,430 for 17 head of young stock. J. D. Nichols of Danby paid \$905 for six head.

PROFIT BY THIS

Don't Waste Another Day

When you are worried by
backache;

By lameness and urinary disorders—
Don't experiment with an untried medicine.

Follow Barre people's example.
Use Doan's Kidney Pills.
Here's Barre testimony.

Verify it if you wish:
Mrs. G. Realini, 92 Brook

street, says: "I have used Doan's Kidney Pills and have found them very good. I had severe pains across my back, when I bent over or attempted to straighten up. I used Doan's and they helped me wonderfully."

Price 60c, at all dealers'. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Realini had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.—Adv.

BRITISH LABOR PARTY DROPS POLITICAL TRUCE

Conference Votes That It Shall No
Longer Be Recognized.

London, June 27.—The British Labor party at its conference held here yesterday passed a resolution to the effect that the party political truce which has been in effect in Great Britain since early in the war, should no longer be recognized.

Delegates representing 1,704,000 votes favored the resolution, while representatives of 915,000 votes were against it. At the opening of the conference W. F. Purdy, the presiding officer, made it clear that there would be no wavering among the members of the party in their determination to bring the war to a successful conclusion.

OUR MOTOR IN FIRST RANK.

Liberty a Valuable Aerial Contribution,
Says Sir William Weir.

London, June 27.—"Tests which have recently been applied in France and this country to the latest American engine have justified the prediction that it would prove a most valuable contribution to allied resources, and the United States can go ahead and push its production with every confidence."

These are the words of Sir William Weir, the new secretary to the air ministry, who presided at the Wilbur Wright lecture delivered by Dr. Durand, scientific attaché of the American embassy, in the central hall at Westminster Tuesday evening.

Referring to the Liberty motor, he said: "The United States can go ahead and push the production of this motor with every confidence. The results of the experiments so far obtained have placed the engine in the very first line of aero motors. It is well understood that some criticism will be directed against the slowness of production of these motors during the last three or four months, but I would like to point out that a considerable interval will, and always must, elapse between the experimental and commercial production of any new motor."

U-BOAT GOT TWO STEAMERS

The Pomeranian and the
Medora Were Bound
for America

FORMER'S CREW LOST EXCEPT ONE

Officers of the Medora Were
Taken as Pris-
oners

An Atlantic Port, June 27.—The Canadian Pacific steamships Pomeranian and Medora have been sunk by German submarines off the British coast, according to the captain of a vessel arriving here from England. Both ships were bound for American ports.

Only the second engineer of a crew of 60 was saved from the Pomeranian, it was declared.

The crew of the Medora took to the boats and the U-boat commander is said to have made the captain, wireless operator and chief gunner prisoners.

GEORGIA RATIFIES FOR PROHIBITION

One More State on Side of National Constitutional Prohibition.

Atlanta, Ga., June 27.—The Georgia legislature yesterday ratified the federal prohibition amendment to the constitution.

SAXONY APPEALS FOR FOOD.

Situation is Described as Worst in the
Empire.

Amsterdam, June 27.—The Dresden newspapers, says a dispatch to the Tagblatt from the Saxon capital, have published an appeal to the government for relief from the critical food situation in Saxony, which is described as the worst in the empire.

Some Tips About Your Engine.

The June Farm and Fireside says: "For instance, if your engine is cold it may either have to be primed or the needle valve may need to be opened an extra turn, or a little dirt in the carburetor will necessitate the opening of the needle valve another turn. You must close it again after the engine starts."

"Again, when the engine is hot, priming or extra opening of the needle valve will cause flooding. If these things are attended to properly and the engine fails to start promptly after three or four turns, you may as well begin to look for the trouble. Do not, however, tear the engine all to pieces the first thing, as you are not likely to have to go very deep. It is usually the little things that are responsible for most of the engine troubles, and the successful engineer will attend first to all minor details, the chances being that the major troubles will not materialize."

Get Under a Panama

You'll feel like a man on a vacation when you get under one of these cool, light, comfortable hats.

You can buy it for the comfort alone and make a good investment, but you can forget the comfort consideration and buy a Panama for the service it gives, and at the end of several seasons you will still have the hat and be dollars ahead of the hat game.

Try out the idea this summer.

Tel. 275-M

WEBSTERVILLE

The war savings stamp canvass has been started in this village and the people are responding very well. Nearly every person the canvassers have visited have given a pledge, which is quite an encouragement. The people are awakening to the fact that if they cannot fight for the government, they must save their money and lend it to the government in order to keep their homes in safety. The war savings stamps are not a donation, but the best investment in the country to-day. We are living in an age of sacrifice and self denial. Let us not be selfish and thereby prove ourselves slackers. The canvassers are confident that each person will do his or her bit.

Mrs. Bert Pelkey returned Tuesday from Providence, R. I., where she visited her parents for several weeks.

The Woman's Baptist Mission circle held its annual meeting at the home of Mrs. Charles Scott of Granvilleville yesterday. The following officers were elected: President, Mrs. John Gall; vice-president, Mrs. C. Petersen; secretary, Mrs. James Cummings; treasurer, Mrs. Charles Scott.

Mrs. Fred Amedy of Barre is visiting Mrs. Henry Turcot.

PLAINFIELD

Attention, good people. The Fourth of July is coming. The Red Cross will help you celebrate. "Yama Yama Man" is something different, so plan to see it. All the young ladies to be in it please meet Mr. Gage, the director, at the opera house Friday at 1:30 p. m.

SOUTH BARRE

Regular meeting of South Barre grange at the hall this evening at 8 o'clock. Program in charge of Worthy Flora.

THRIFT

in tire buying—
Most Miles per Dollar

THESE times are giving a national meaning to those principles of efficiency which years ago gave to Firestone the record of Most Miles per Dollar.

Firestone Cord Tires

carry this economy to a still finer degree. Not only added mileage far beyond the added cost, but extreme resiliency saves gasoline. Also this resiliency in protecting the car saves repairs and retards deterioration.

Invest in these tires and keep down your expense, thereby helping the general cause of conservation.

Firestone Fabric Tires Giving More Miles Than Ever

In bringing the Cord Tire to its present stage of efficiency Firestone builders found ways of applying some cord principles to fabric construction.

More rubber between fabric layers, a reinforced bead which insures a perfect and firm seating of the tire to the rim.

Also a thicker cushion of pure gum under the tough tread which prevents tread separation and reduces stone bruising.

Have your dealer show you. Use this improved type and practice real economy. See your local dealer.
